OUR SPECIALTIES

- **Heat Exchangers:** Up to 48" diameter (or larger depending on weight); U-tube, straight tube, single-pass or multi-pass configurations
- **Thermal Fluid Heaters:** Up to 40 MM Btu/hr
- **Materials of Construction:** Carbon steel, 304L SS, 316L SS, Duplex, AL6XN, Hastelloy, and more (sanitary SS equipment is manufactured in our carbon-free facility in Medford, WI)
- **Certifications & Standards:** 3-A, ANSI, ASME, TEMA (Class B, C or R), API, NBBI, PED, CRN

FAST DELIVERY

- Customers count on Enerquip to minimize plant down-time and get new projects up and running faster.
- Standard designs streamline the drawing approval process and allow us to use standardized parts – often produced and stocked in advance.
- Our in-house production capabilities gives us control over the complete manufacturing process.
- Enerquip's talented team has a strong work ethic and a dedication to taking care of our customers.

HIGH QUALITY

- Enerquip is an ASME certified fabricator of heat exchangers and pressure vessels. We have a line of 3-A compliant heat exchangers for food and dairy applications.
- Our API certified industrial heaters are built with safety and longevity in mind.
- Every piece of equipment is inspected and, if applicable, hydro-tested and code stamped prior to shipment.

Learn for yourself why Enerquip's quality and service is unmatched in the industry. Call us, today!
